Experience

Frontend Web Developer with more than two years of hands-on experience in creating and implementing web-based user interfaces.
Proficient with modern development workflows and routinely utilize tools like Slack, JIRA, Git, and Github for efficient project management, code versioning, and team collaboration.
Strong interpersonal skills with a proven track record in effectively communicating with international clients and cross-functional teams

React Developer @ Lyftyfy   **July 2022-Dec. 2023**
Highly proficient in JavaScript and React js. I actively worked in the development and maintenance of LyftLyfy's product, collaborating closely with the team to meet their requirements

JavaScript Developer @ Gosign   **Nov 2022 - Dec. 2023**
I worked as a JavaScript developer, utilizing advanced tools provided by JS like Event delegation, intersection observer API, promises, etc on a daily basis.

React JS Developer @ Viral Square   **Dec. 2023 - present**
As a React.js developer at Viral Square, I am actively utilizing Material-UI, Redux Saga, Ant Design (AntD), Redux Toolkit etc. to create dynamic and responsive user interfaces.
